WORK EXPERIENCE

Frontend Engineer | Mently , Norskken Kigali , Rwanda

November 2023 - PRESENT **Remote (Frontend Lead) : Mently** is a cutting-edge Software as a Service (SaaS) application that transforms how mentors and organizations manage and host their mentorship programs. The application was developed using Figma for design, Next.js, TypeScript, Material-UI, TailwindCSS, and GitHub for version control.

- *Designed and implemented the frontend architecture, selecting technologies, defining code standards, and establishing a collaboration workflow.*
- *Ensured a balance between functionality and aesthetics in the application's design.*
- *Developed a responsive and fully functioning dashboard for both mentees and mentors, comprising over 45 screens.*
- *Provided technical direction and ensured alignment with project goals.*
- *Reviewed code to maintain quality standards and led the development team.*
- *Collaborated closely with the design team to ensure responsive design and cross-browser compatibility.*

Fullstack Developer | Techrity , Port Harcourt

FEB 2023 - PRESENT **Volunteer (Engineering Lead):** Lead a team of three engineers and one UI designer in building the company's website, from UI design to implementation, using Figma, Next.js, Hapi.js, Material-UI, and GitHub. • Created the project's architecture to ensure security and smoother performance.

- *Transformed Figma designs into visually appealing web applications.*
- *Developed a robust dashboard to manage data flow on the site.*
- *Organized technical training sessions and workshops to enhance team skills.*
- *Communicated technical concepts and progress to non-technical stakeholders.*
- *Reviewed code to improve quality, standards, and best practices.*
- *Onboarded and trained team members to enable them to contribute effectively to the project.*
